WORK EXPERIENCE

JPMorgan Chase

Senior Frontend Software Engineer

(2022 - present, Remote)

- Currently lead front-end development on the Chase Media Solutions Performance Dashboard (*dashboard.gofigg.com*), an analytics and reporting web client for card-linked offers that allows marketers to reach 80 million Chase customers and 800 million average monthly offer views
- Worked as a part of a cross-functional team of developers, designers and one product owner to deliver an accessible, performant and aesthetically pleasing webapp

High 5 Games

Web Developer

(2019 - 2022, NYC/Remote)

- Developed the frontend for the B2C Real Money Gaming web casino (*high5casino.com*), allowing users in many different countries to play slot games online with real money
- Built promotional display system using React and CSS Grid that handled animation, localized text, parallax and more

Fitch Ratings

Junior Software Engineer

(2018 - 2019, Chicago, IL)

- Developed front-end for FitchConnect, a web application providing ratings and financial information to clients internationally, using Vue.js, Atomic CSS and GraphQL

***Chicago* magazine**

Web Developer

(2017 - 2018, Chicago, IL)

- Led web design and site administration for all properties (*Chicagomag.com*, *Chicagosplash.com* and *NapervilleMagazine.com*)
- Led redesign of main subscribe page, resulting in 20% more conversions per visitor
- Created microsites for clients

Graphic Designer

(2016 - 2017, Chicago, IL)

- Assisted with analytics for all properties (Google Analytics/Trends/Webmaster tools, Chartbeat)
- Designed marketing, promo and ad print material for *Chicago* magazine, Splash magazine, Naperville Magazine and Mariano's magazine

***Chicago Sun-Times* Splash**

Multimedia Producer

(2012 - 2016, Chicago, IL)

- As a part of a small team, launched a weekly lifestyle magazine (*Splash*) for the *Chicago Sun-Times*, distributed throughout Chicago and suburbs
- Produced photo and video editorial content
- Designed print pages for both publications
- Project-managed the design, development and launch of *Splash.suntimes.com*
